

VULNAGUARD

CYBERSECURITY CAPABILITY STATEMENT

Fractional security support | Project delivery | Direct and subcontract engagements

Experienced security capacity without another full-time hire.

Vulnaguard LLC supports organizations that need practical cybersecurity execution, risk visibility, and compliance readiness. We work with existing client tools and teams to deliver defined projects or recurring coverage.

CORE CAPABILITIES

VULNERABILITY MANAGEMENT

- Finding review and risk-based prioritization
- Rapid7 and Tenable workflow support
- Remediation tracking and reporting

GOVERNANCE RISK AND COMPLIANCE

- SOC 2 readiness; NIST and ISO 27001 alignment
- Risk registers, audit evidence, policies and standards
- Vendor security reviews and questionnaires

SECURITY PROGRAM DEVELOPMENT

- Incident response plans and security roadmaps
- IAM, SSO, MFA and PAM guidance
- Administrative access reviews

FRACTIONAL ANALYST AND BISO SUPPORT

- Security metrics and stakeholder reporting
- Business-facing risk translation
- Program oversight and remediation coordination

ENGAGEMENT OPTIONS

PROJECT-BASED CONSULTING

- Defined assessments, audit readiness and security documentation
- Remediation projects and incident response planning

ESSENTIAL SECURITY SUPPORT

- Up to approximately 20 hours per month
- Vulnerability review, questionnaires and monthly check-in
