COMPANY OVERVIEW

Vulnaguard LLC is a Maryland-based cybersecurity and compliance company focused on helping organizations reduce cyber risk, strengthen security programs, and prepare for government and regulated-industry compliance requirements. Our proprietary **Sentinel** platform combines compliance automation with executive risk visibility.

MISSION

To help organizations strengthen their cybersecurity posture through practical security consulting and intelligent compliance automation.

DIFFERENTIATORS

- Purpose-built for government contractors and their supply chain.
- Proprietary **Sentinel** compliance intelligence platform.
- API-first architecture — integrates with existing stacks.
- Practical, risk-first approach — no compliance theater.
- Combines consulting expertise with automation at micro-purchase pricing.
